TIED PENDANT

About
The tied pendant light consists of a ceramic cylinder & fabric-covered power cord.

Design
wrk-shp is a design studio-based in Los Angeles. They are a multi-disciplinary duo – with interests ranging from tiny mundane objects to large scale buildings and everything in between. Their clothing line is designed using textiles from Japan and produced in California. Their furniture designs and home products are made by local, highly-skilled crafts-people all made proudly in USA.

Features and benefits
A simple, yet truly innovative design piece. The mix of all the materials looks fabulous together. The wires are supplied in many colors – sufficiently long to plug into a wall outlet, hook and swing down from the ceiling. It is moved around easily, which makes it very useful. The Tied Pendant looks very nice with di erent types of bulbs; and a cluster of pendants ff looks really great.
