LIGHTING CATALOG

OUR STORY

For 25 years, our founders John Fearon and James Bassant have shared a passion for British lighting design and a vision to create products with distinctive quality. The insight gained over this time influences our comprehensive range of lighting for hospitality, residential, and commercial applications. Underpinned by our meticulous attention to detail, we balance high-performance with a commitment to sustainable, timeless design.

DESIGNED IN BRITAIN

Our luminaires begin life in the UK as simple drawings within our sketchbooks. Future-proofed designs with a pared-down aesthetic, it's a simplicity of form that ensures our products retain enduring quality.

DIFFERENT BY DETAIL

We believe every product should be made to last. We don't believe in compromise and always choose the best possible processes, trusting that if the engineering is great, the final product will be great too.

BETTER FOR TOMORROW

Our vision is a future where business, people, and the planet can live more harmoniously together. It's rarely simple, but small acts that challenge the way we do things today, will ultimately lead to real and meaningful change tomorrow.

A GLOBAL COMMUNITY

From one customer and six products in the beginning, to what is today an internationally recognized brand. It's thanks to the global Astro family and our dedicated manufacturing partners that we continue to bring our vision to life.

Co-Founders John Fearon and James Bassant

OUR 2030 COMMITMENTS

NET ZERO

We are committed to going further than carbon neutrality by doing all we can to reduce emissions to as close to zero as possible across our entire value chain.

ASTRO CIRCULAR

We are transforming our approach to design and engineering to lengthen the lifetime of our products, adopting circular loops such as reuse, repair, and recycle.

Image credit: SolarAid/Thoko Chikondi

LIGHT FOR ALL

Nearly one billion people live without access to electricity. Many are forced to rely on dangerous and toxic light sources when it gets dark such as candles and kerosene lamps. We believe everyone should have access to light no matter who you are or where you live. We're working on several initiatives to spread awareness of this global energy crisis and help more people get access to light through the use of portable solar lamps.

Head of Design, Riley Sanders

SUSTAINABILITY IN DESIGN

There are many ideas around what makes lighting sustainable, but we believe it is about being mindful of the whole lifecycle, making responsible design and engineering choices at every stage – from the very first concept sketches, through to the end of the luminaires' life.

We demonstrate this way of thinking through our set of guiding principles.

- Products will have a long design life.
- Products will avoid unsustainable materials and manufacturing processes.
- Products will be efficient.
- Products will be repairable, and any consumables will be replaceable.
- Products will facilitate reuse, recycling and responsible disposal at their end of life.

Shaping our ongoing journey, we are committed to delivering sustainable and conscious design.

For more information on our sustainability ethos, please visit us.astrolighting.com/sustainability.

FLEXIBLE SUPPORT

IN STOCK

We continuously hold stock of the most popular finishes and specification variants of our products at our global warehouse locations in the USA, UK, Europe and Asia-Pacific. This commitment enables us to swiftly fulfil orders to meet your project needs.

MADE TO ORDER

If your preferred specification is not available from stock, much of our collection can be provided with adjusted light performance, in a range of selected finishes and shade colors, subject to moderate lead times and a minimum order quantity.

TAILORED

Does your project have specific demands or require more detailed consideration? Our dedicated team of design engineers can provide solutions to meet your needs. While we do not undertake unique commissions, many of our products are designed with inherent adaptability that facilitates fine-tuning for larger project requirements within a slightly extended lead time.

2

PROJECTS

We are proud to play our part in some of the most exciting design projects across the globe. Working closely with our customers and partners we deliver contemporary, purposeful designs that complement every aspect of luxury living and hospitality, from guest bedrooms and bathrooms to living areas, corridors and exteriors.

Project name	Location

LED DRIVERS

All products with an integrated LED light source that are labelled as Class 2, must use a compatible LED driver between the switched mains supply and the LED module to protect sensitive componentry*.

We offer a range of high quality Drivers from a number of reputable manufacturers with functionality to suit your needs.

Visit our website and use our online Driver Calculator tool to suggest suitable options for your scheme in just a few simple steps. us.astrolighting.com/driver-calculator

*Failure to use an appropriate driver may cause permanent damage requiring replacement of the entire light fitting.

WATTAGE	DESCRIPTION	DIMENSIONS	CODE

DESIGN RIGHTS

The majority of products shown in this catalogue have been designed by Astro Lighting Limited, which retains the ownership of all design rights.

Astro Lighting has a policy of constant product improvement, and whilst every care has been taken in the production of this catalogue, products supplied may differ in detail from the illustrations, images and descriptions given and therefore these descriptions and illustrations shall not form part of any contract. Details of alterations will be provided on request.

Astro Lighting only use LEDs from the leading manufacturers. Nevertheless, colour temperatures can vary between batches and between manufacturers.
