

INSTALLATION AND MAINTENANCE

01. The appliance is to be installed by a recognized electrician and in accordance with the enclosed directives.
02. See enclosed LED driver datasheet for all the connection options.
03. Do not install the appliance in a humid environment.
04. Connection according to local rules and regulations.
05. When installing or working on the appliance, ensure that the power has been switched off.
06. For hanging the appliance always use 1 mm (diameter) steel cable.
07. All used materials are recyclable. The appliance should be disposed of in a special way, not through the ordinary trash collection service.
08. Please leave a copy of this manual to the person responsible for the maintenance or the installation.

WARNING

The appliance may not be covered by insulating material or anything similar - do not subject to voltage higher than 240V ac.
The safety of this appliance can only be guaranteed if these instructions are observed, during both installation and use.
Please retain these safety instructions.

When damage occurs due to incorrect assembly, manufacturer does not guarantee a replacement of a part.
