“We like to design objects that are functional, and aim for a long lifespan. For that reason, we do not follow trends and adopt a design language which can sustain the passage of time. This is especially important for lighting, which plays a big role in the perception of a space and cannot be moved around like furniture.”

design by  
BIG-GAME

PROBE is a contemporary lighting that serves an honest and essential function with an instinctive and refined geometric shape. PROBE comes with various types of lamp; a spot rail lamp, wall lamp, standing lamp, and chandelier to be adapted to different spaces with a perfect combination of lightings. The customer also can choose from ambient or focused beam light to find the best light quality in the space.
