

Astro Mobile Light No.2

The Astro Mobile Light combines planet-like forms and luminous globes to balance itself as it hovers in space. The chandelier provides various orbit patterns by simply rotating the arms. The collection can be used in groupings to produce galactic constellations or independently as its own solar system.

Design

2016, Andrew Neyer

Materials

Powder coated steel and aluminum
Blown glass
Oiled oak

Dimensions

80" W (arms parallel)
30.5" H
