CRAFTSMANSHIP

Every Bert Frank lamp is meticulously designed and manufactured in the United Kingdom, where craftsmanship thrives. Our workshop, though not a 19th-century throwback, embodies a forward-thinking, technologically advanced factory. Here, highly skilled machinists and experienced fabricators, proud of their work, contribute to the creation of each lamp. We firmly believe in the importance of quality, and our British artisans consistently deliver excellence. Every Bert Frank light bears witness to this commitment, from the lustre of hand-finished brass to the smooth movement of hinges and the seamless integration of joints. Each intricately knurled thumb nut and elegant finial showcases craftsmanship of the highest order.
