### INSTALLATION

1

- Firstly, separate the shade collar and fixing ring by removing the screws.

2

- Insert the fixing ring into the main shade.
- Secure the shade collar to the fixing ring using the screws.

1

- Holding the base of the lamp, guide the neck of the shade onto the gallery section of the base.
- This will need to be held together and supported throughout stage 2.

2

- Guide the white washer down through the shade.
- Screw the thumb screws through the white washer and into the gallery to sandwich and secure the shade in place.

## BULB REPLACEMENT

---

1

- Turn off the light at the mains.
- Replace bulb by screwing it into lamp holder.

2

---

This product is only suitable for connection to the native power supply to which the unit was specifically manufactured. It is for indoor use only, and not suitable for a bathroom location.

If the Class II, double insulated symbol is on the lamp, it does not require an Earth, and Live or Neutral must not be connected to Earth. If there is no such symbol, then the lamp must be Earthed.

Never fit bulbs of a higher wattage than those specified on the label, as these may cause overheating and damage the fitting.

Under no circumstances must this table lamp be covered with any material as this could pose a safety hazard. It must be used on a stable, flat surface.

If the mains cable becomes damaged it must only be replaced by a technically competent, qualified person.

Allow 10 minutes to cool before replacing, adjusting or cleaning. Clean with a dry cloth only. Do not use liquid or abrasive cleaners on this product.

If you are in any doubt about your competence please consult a qualified electrician. If any modification is made it will invalidate the warranty and may render the product unsafe.
