

ECLISSE

Massimiliano Raggi

SO

Sospensione ad anelli, realizzati in legno con finitura bronzo (in due tonalità), attraverso le nuove tecniche di verniciatura con polveri di metallo: l'effetto è quello del bronzo spazzolato su metallo. Adesso disponibile anche nella nuova finitura bianca. Contardi propone la luce principale, dimmerabile, inserita nel rosone e centrata sull'anello principale, che colpendo gli spicchi degli anelli laterali crea un effetto "ombra" sulla superficie, da qui il nome Eclisse. Gli anelli laterali invece emettono invece una luce più soft e delicata, diffusa dal materiale plastico speciale con venature, che ricorda il marmo. Le due sorgenti sono comandabili separatamente e la corrente è condotta dai cavi coassiali di tenuta, senza alcuna cavo di alimentazione, garantendo il massimo risultato di pulizia formale.

Through new innovative and unique techniques was born the Eclisse Chandelier. A suspension lamp with three multi-sized rings made of wood, the Eclisse stands out by using a new method of painting wood with metal powders; creating the illusion of a satin bronze & light satin bronze metal finish, while offering the benefit of a lighter weight, more sustainable fixture. The two side rings emit a soft light diffused by a special acrylic material with characteristic veining similar to that of marble. The main light is a dimmable COB LED built in to the canopy and focused on the main ring with the objective of creating a shadowing effect reminiscent of an Eclipse, or in Italian Eclisse. The two light sources can be controlled separately and the current is led through coaxial suspension cables without any power cable, guaranteeing the maximum neatness of form. Now also available in a total white finish.
