THE BRAND

CTO Lighting is an exclusive, luxury lighting company, which celebrates contemporary design, premium materials and British craftsmanship. Our designs illuminate the interiors of iconic landmarks, commercial developments and prestigious residences around the world.

We hand select the finest materials, which are meticulously crafted into their unique designs, creating iconic and memorable lights. The signature materials of satin brass, bronze, alabaster, mouthblown and handmade glass are combined with design influences from both nature and architecture.

The handmade nature of the products results in truly unique lights, which produce a warm, ambient glow, setting a mood of sophistication and elegance.

There is a longevity to CTO Lighting products; the design and manufacturing process is always carefully considered and is timeless beyond trends. Lights can be selected from the CTO Lighting collection, or may be customised for your individual requirements.

In pursuit of minimal luxury, the new Anvers collection, from CTO Lighting, is inspired by Antwerp, a city and region of refined Flemish beauty and elegance.

Renowned for its classical architecture and understated luxury, Antwerp is a cultural gem, reflected in the Anvers collection of lighting, which bears its name.

 ANVERS PENDANT | LARGE BRONZE

ANVERS PENDANT | MEDIUM SATIN BRASS

Inspired by the linear plains of the Flemish landscape, the Anvers collection embodies the low-lying profile of the terrain with its refined silhouette, whilst creating maximum impact through its exquisite disc of natural alabaster stone.

 ANVERS WALL | SATIN BRASS & BRONZE

Each piece is backlit by a fully dimmable integrated LED, creating an ambient glow, whilst illuminating a room with a soft, warm elegance, a signature CTO attribute.

ANVERS PENDANT | MEDIUM BRONZE 

The Anvers collection is versatile, featuring various size options in both pendants and mounted ceiling or wall lights. Each light can stand alone, creating a dramatic illumination, or can be assembled in multiples, creating a truly unique and striking lighting installation.

ANVERS PENDANT | SMALL SATIN BRASS

ANVERS CEILING | SATIN BRASS 

The various formats within the collection allow for a balance of proportion in a room; the ceiling mounted lights produce a dramatic feature without the necessity of height.

The translucent disc of honed alabaster is encased within solid brass, creating a pure and elegant piece. The natural striations within the alabaster, produce an individual and distinctive feature.

 **ANVERS WALL** | SATIN BRASS & BRONZE

AVALON HALO CHANDELIER | SATIN BRASS 

The Anvers and Avalon collections complement each other perfectly in their aesthetic and design, creating the ultimate illumination.

MATERIALS & FINISHES

ALABASTER STONE

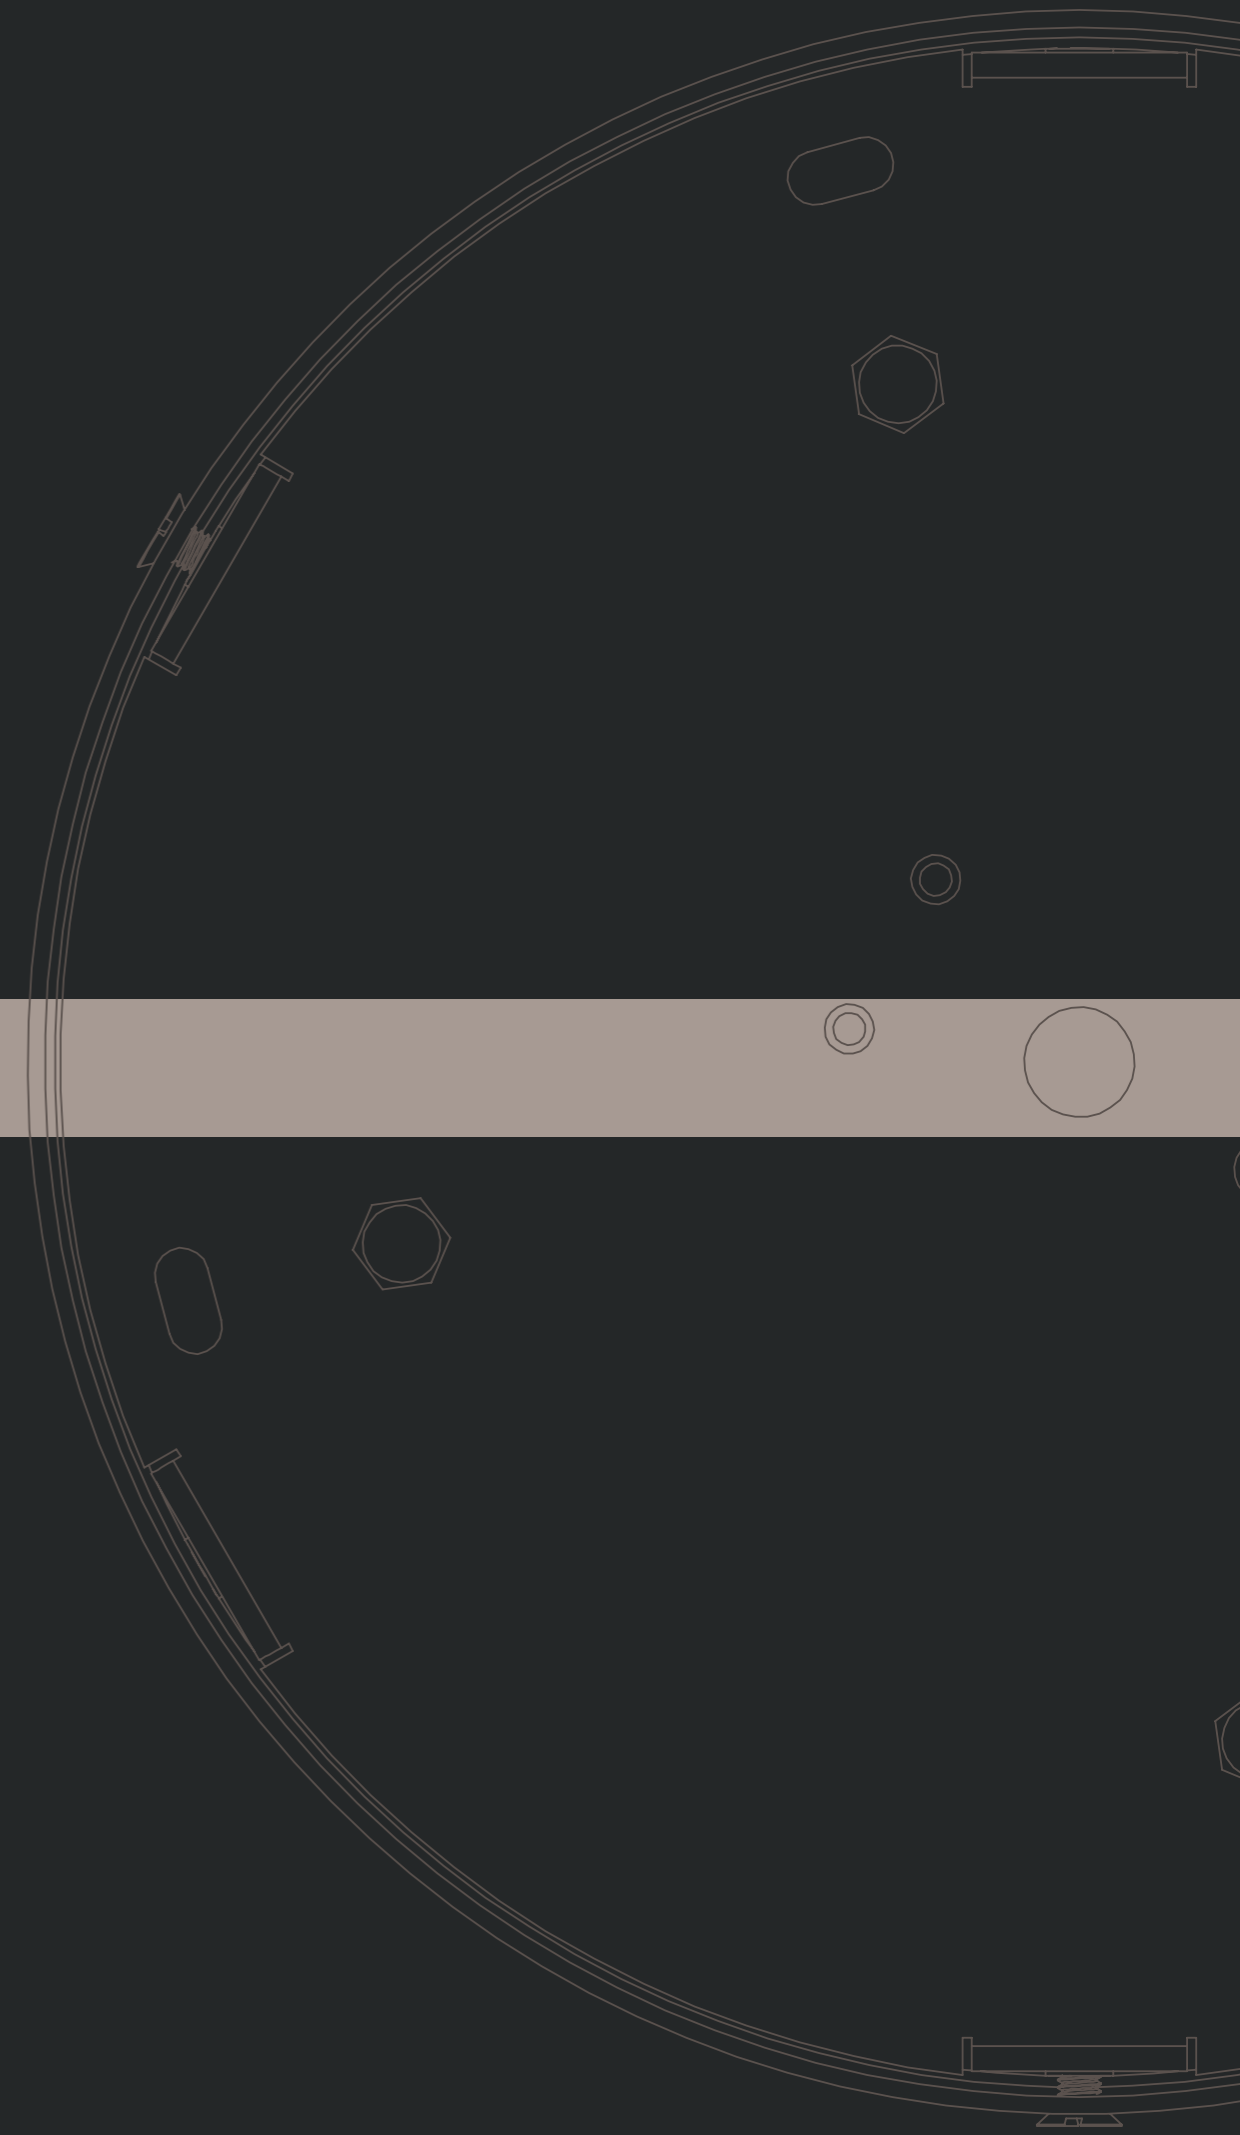

The unique veining of this soft, smooth, sedimentary gypsum rock creates truly unique lighting; some alabaster stone is almost white, whilst others have grey striations. The glow of an alabaster shade is evocative, ensuring a memorable and impressive piece.

RAW BRASS

A predominant feature on CTO Lighting pieces which is processed by hand, followed by various artisanal techniques to create the exquisite finishes of satin, antique and polished brass as well as bronze patination creating a unique and rich finish.
