

Binic, tavolo

by Ionna Vautrin

FOSCARINI

DESCRIPTION

Binic is the name of a small lighthouse on the coast of Brittany, the region the designer Ionna Vautrin comes from, which is the inspiring theme of this small table lamp filled with character. Its colorful and unusual shape whets the imagination and is immediately appealing. The round glossy finish upper volume is supported by a conical satin finish base, casting an intense and uniform spotlight downwards. With its palette of 6 trendy colours, Binic is in tune with the personality of whoever chooses his or her favourite version and it blends in seamlessly with a range of domestic environments and styles: a study, a child's or an adult's bedroom or a personal corner in a living room. A packaging designed by Ionna Vautrin herself, unique and fun like the lamp itself, suggests Binic as a "take away" object, to be given away as a present, or for personal use.

MATERIALS

Batch-dyed ABS and polycarbonate

IONNA VAUTRIN

After multiple European partnerships, and after receiving the “Grand Prix de la Création” in Paris in 2011, she opened her own studio, with an ambition to design immediate yet surprising objects, distinguished by the merger of industry and poetry.

Examples of this philosophy include the Binic table lamp, a small, friendly household spotlight, and the Chouchin family of lamps, with simple, familiar and complementary shapes and colours.
