est 2012

## LUNA Kaleido 1 Tier Chandelier

Inspired by a lunar halo, the LUNA is a highly customizable modular light fixture which grows in every direction as its assembly system stems horizontally or vertically. Stacking color upon color of various mouth-blown glass shapes, the series has been designed to offer infinite interpretations of tone, shape and refracted light.

The new Kaleido Collection plays with texture, color and shape to distort light and create magical optical illusions when looking through the glass. Combining soft iridescent colors with patterned textures and delicately shaped glass beads, the Kaleido Collection effortlessly brings together smoked gray, smoked bronze, opaque pink, opaque blue, opaque white and clear colored glass with six new textures and shapes.

All Gabriel Scott pieces are handmade in Canada.

 <b>Carina</b> 10.9" X DIA. 10.4"	 					 

Note: Every individual glass bead is hand-blown to order. With any artisanal process, there is likely to be variation in the finish which makes each piece unique and special. Every bead goes through a rigorous inspection process prior to being delivered to ensure they're up to the high standard Gabriel Scott expects.
