

Tandem Swing Arm Lamp **NEW**

Gus*

FINISH > Black or White Powder Coated Metal

Form meets function in the forward-thinking Tandem lighting collection, which combines streamlined industrial aesthetics with a practical ethos, resulting in a simple yet stunning design. A white or black powder-coated finish shines when teamed with thoughtful details, like adjustable lamp heads, a fabric-covered cord and convenient hand switch. The adjustable swing arm allows you to customize the lighting as you please, bringing it closer when you want to curl up on the sofa with a book and allowing you to move it away from your sightline when you're deep in conversation.
