

# Panthella MINI

The fixture emits a soft and comfortable illumination. The metal version directs the light directly downwards and creates a soft and comfortable illumination due to the inner white painted shade and the reflection from the trumpet shaped stem. The acrylic version leaves a diffused comfortable light atmosphere due to the color and the downward reflection from the inner shade.

## Verner Panton

Verner Panton (1926-1998) is famous for his inspirational and colorful personality. A unique person with a special sense for color, shape, light function and space. Over the course of his career, Panton introduced a series of modern lamps with personalities unlike any of his Scandinavian contemporaries.
