

by Shawn Place

“Rocker” combines the old saddle belt technique with traditional woodworking crafts in a timeless and characteristic design. The visible joints details as well as the high quality full grain leather gives the rocking chair comfort and durability. The leathers are carefully selected from the Harness range of vegetable tanned hides by Sorensen Leather with no use of chrome or chemicals. Natural imperfections adds character and allows it to age beautiful over time.

The oak wood is sustainably sourced from well-managed forests and thereby honoring the UN Sustainable Development Goals of protecting “Life on Land” (SDGs 15) and “Responsible Consumption and Production” (SDGs 12) and supporting “Partnership for the Goals” (SDGs 17).

Item no.

07010 Natural Oak/Harness Whiskey
07011 Sirka Grey Stain/Harness Mustang

Material

Oak Wood, FSC certified

Finish

Natural Matt or Sirka Grey stain lacquer
