Kaipo TOO

EDWARD VAN VLIET

The Kaipo TOO, designed by Edward van Vliet, radiates unity throughout its hand formed Venetian glass. It is the successor of the first Kaipo design, dating back to 2001. The lighting object still sports the classic shape of the archetypical lamp base.

Detailing

The Kaipo Too features a glass diffuser, that creates a very warm and charming glow of light.

Dimmer

For fluent dimming behaviour we advise a dimmer that is compatible with the following specs.

Please note the functioning of the dimmer and the power supply combination can never be predicted, it always needs to be tested in practice.
