A LIFE EXTRAORDINARY

moooi

MOOOI INTRODUCES

Raimond II, brighter than ever!

The Raimond is maybe the most loved Moooi design in the collection. This Moooi Original, that brings the night sky indoors, has a strong presence in our collection since its introduction in 2009. Now, twelve years later and to honour our extraordinary Moooi Originals, we've modernised our Raimond family. We're proud to present the Raimond II. Brighter than ever!

THE STORY BEHIND

The Raimond is a Moooi Original loved by many worldwide since its introduction in 2009. To honour our Moooi Original designs in our collection, we further improve them. That's why we've modernised our Raimond family, to move with the times. We're proud to present the Raimond II.

Visually nothing has changed, except for the canopy that is now slightly bigger and houses The Button included in the inside. All the change is in the technology. Raimond II contains an improved driver and LEDs. The new driver works with multiple dimming systems (like Casambi, Zigbee etc), It will dim to dark and when fully on it will have a significant higher light output.

We also release worldwide a new device that will work with the Raimond II family: a Moooi branded wireless wall switch!

[Watch the video](#)

COMMERCIAL INFORMATION

- Improved LEDS
- Approximately 3x higher lumen output
- Easier and better dimming options
- Moooi branded wireless wall switch available
