The Brava Wide pendant, which is shorter and wider than its Tall counterpart, is a low-voltage pendant light that is a dramatic show stopper. This light-filled vessel emits a soft glow, like a large star in the night sky. Add multiple Brava Wide pendants together to create a grand display or combine with Brava Tall to elongate the installation.

The Constellation Series pushes the boundary of both scale and technology. Each glass shade is suspended from a low voltage coaxial cable and illuminated by a custom integrated LED source and diffuser that are housed within the premium metal glass holder.
