

# Landing

Che storia semplice quella di questa collezione, caratterizzata da dettagli minimalisti, da una luce pura e moderna, da una diffusione luminosa controllata. Materiali attuali e lavorazioni millimetriche dialogano con scenari mai banali in un'ampiezza di gamma fatta di diverse dimensioni, finiture e modelli. Una storia formalmente semplice ma che per sua natura si rivela difficile da raccontare e da essere recepita. Una storia di luce non per tutti.

What a simple design this collection has. It's characterized by minimalist details and has a pure, modern light and controlled light diffusion. Current materials and millimetric processes interact with scenarios that are never dull, creating a wide range of products which includes various sizes, finishes and versions. Officially a simple design that by its nature proves difficult to describe and to understand. A lighting design that is not for everyone.

Designer: **Sergio Prandina**

**Landing Glass S70**

Versione a sospensione con  
diffusore in vetro bianco opalino.  
Suspension version with opal  
white glass diffuser.

Il design semplice di Landing ispira e contribuisce alla realizzazione di interni sofisticati, fondendosi con l'ambiente circostante e donando all'insieme un'allure distintiva.

Landing's simple design inspires and contributes to the realization of sophisticated interiors, merging with the setting and creating a distinctive allure.

### **Landing S70**

Versione a sospensione con diffusore in metallo galvanizzato con finitura ottone lucido.  
Suspension version with galvanized metal diffuser with glossy brass finish.

Materiali innovativi e lavorazioni millimetriche si uniscono per dialogare con il progetto affinché il risultato non sia mai banale, creando un'ampia gamma di prodotti che comprende varie dimensioni, finiture e versioni.
