

Santachiara

Among the pages of history, one finds the charm of the traditional Chinese lantern. Gong is inspired by their shape, which contains, protects and projects light. The diffuser is a blown crystal cocoon, externally engraved and decorated both inside and out, while the lower part is left to reveal all the purity of glass. Having completed advanced research on painting, mirroring and metallization, the lamp lights up to demonstrate the refinement, reflections and evanescence of precious metals and materials. Available in three different versions (suspension, table and wall), it is offered in five different finishes and with multiple light sources. Designed by Sergio Prandina, this collection preserves and passes on all the Prandina tradition.

Designer: **Sergio Prandina**

Santachiara | Technical data

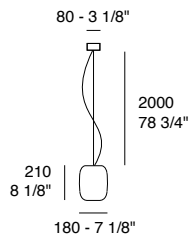

With the Santachaira collection you can bring all the attention to light. You can create various compositions mixing different sizes, focusing just on the pure beauty of glass. The final result is a cozy atmosphere that you can easily create by choosing Santachaira to enrich your interiors and create a coordinated layout.
