RA Pendant Instructions

Two persons advised for this installation.

Tools:

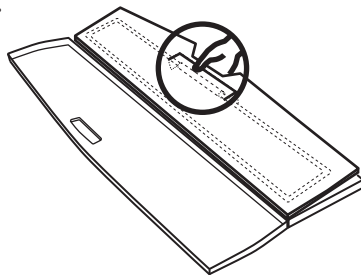

- Disposable latex gloves
- Metal anchors and screws x2
- Screwdriver

- 1 Open the plastic box starting with the two outer locks before opening the two inner locks.

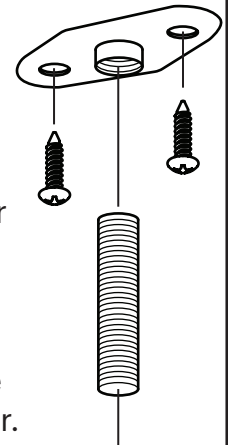

- 2 Do not remove the soft foam during installation as it protects the neon tube.

Only hold the lamp by the bracket or the wires.

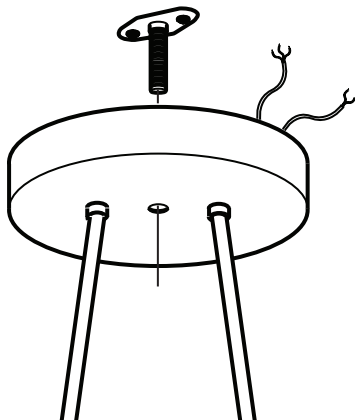

- 3 depending on your ceiling, use appropriate anchors and screws that will sustain the weight of the pendant, to install the holder or install on an octagonal box.

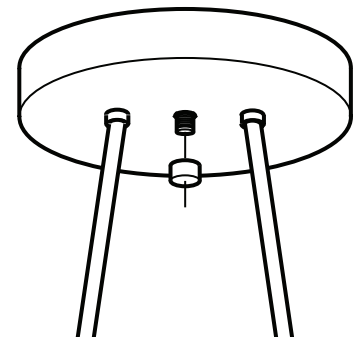

once fixed, screw the stud bolt in the holder.

- 4 Connect the wires to the electricity.

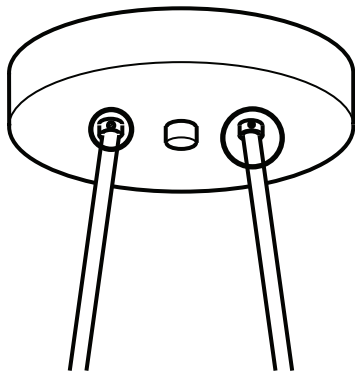

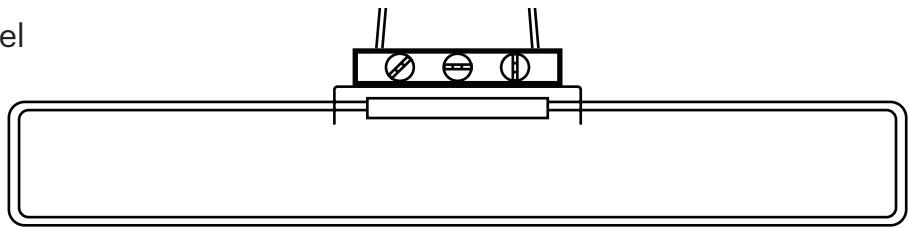

5

Place the lamp canopy and screw the brass cap to hold it.

6 To adjust the lamp level

cables can be adjusted by unscrewing the strain reliefs situated on the canopy.

Once adjustment are made tighten back the strain reliefs.
