

PROJECT

TYPE

NOTES

OVERVIEW

Jalon collection is made of very few elements, which are used as much as possible. The single-piece body is made from aluminum and requires a considerable amount of craftsmanship to produce. The light is evenly diffused across all surfaces to create a graceful ambience without sacrificing functionality.

CANOPY

MOUNTING

Ceiling Pendant

SOURCE

Integrated LED module

MATERIALS

Powder-coated aluminum

Semi-synthetic cord

Frosted Acrylic

ENVIRONMENT

Indoor - Dry location

DIMMING

Fully dimmable with TRIAC, ELV, and 0-10 V dimmers
See Dimming compatibility on page 3

SPECIFICATIONS

Voltage	120V-277V 50/60Hz
Power consumption	21W
Color temperature	3000K 2700K More color temperature is available upon Request
Luminosity	872 lm (3000K)
Color rendering index	≥90 CRI
Lifespan	50K hour lifespan

CLEANING INSTRUCTIONS

- Dust the luminaire regularly with a soft, dry cloth to remove any surface dirt and debris.
- For more thorough cleaning, use a damp cloth or sponge with a mild, non-abrasive soap or detergent. Do not use any harsh chemicals or abrasives that could damage the finish.
- Never use any solvents, citrus juice, vinegar, or other acidic or abrasive cleaning solutions on the luminaire, as these can damage the surface.
- For the textile braided cord, gently wipe it down with a damp cloth to remove any dust or dirt. Do not soak or immerse the cord in water, as this can cause damage.
- Avoid using any sharp or abrasive tools or scrubbing pads on the luminaire, as this can scratch or damage the finish.
