

TOM — KIRK LIGHTING

Reed Table Light

Inspired by delicate, natural forms, the Reed Table Lights are designed to provide atmospheric accents to sophisticated interiors. Used individually or clustered together in small groups, they can be used as tools to create an alternative environment. The frosted diffuser emits a soft, warm light—controllable via an in-line dimmer switch. Precision engineered in aluminium, brass and steel, the table lights are available in two sizes and a selection of polished or powder-coated finishes.
